- Good Communication
- Leadership
- Team Work

❖ Technical Skills

- UI/UX Designing (Figma, Photoshop)
- Frontend Development (HTML, CSS, JavaScript, Tailwind, React)

Projects

Web - Projects

- Plus-Care ([pluscare.com](#))

Plus-care is the smart appointment system. It's a web-based platform designed to streamline the process of booking doctor's appointments. It allows patients to register, search for doctors, and manage their appointments. As well as doctors can view their appointments and add a prescription.

- Work-sync (On Working)

In the present days I am working on the website **Work-sync**, this is the website for people who are not educated or no degree so for this reason they can't get a job using our website they can get job and earn with us.

- Bubble-hit ([Bubble hit](#))

I have created bubble hit game at time of learning the JavaScript. Bubble Hit is a fast-paced JavaScript game where players pop colourful bubbles within a 60-second timer. Track your current score and compete for the highest score as bubbles change colour with each hit!

UI / UX – Designs

- Work-sync ([WorkSync](#))

In the present days I am working on the website **Work-sync**, this is the website for people who are not educated or no degree so for this reason they can't get a job using our website they can get job and earn with us.

- FOOD-ADDA ([Food-Adda](#))

This is the design of the FOOD-ADDA where people can find the all-vegetarian dishes in the FOOD-ADDA. in this the dishes are available like Gujrati, Punjabi, Chinese, South-Indian and many more...
